

Our Vision:

The Pen of the Phoenix is working toward the day when we can look back and see the positive influences we have had on today's youth.

Our Objectives:

Our objectives are to write letters to young elementary school kids and mentor them through creative writing. We also would like to raise money to buy the students classroom trinkets. With approval, we would like to deliver these gifts to the kids and meet our pen pals!

"We are the Pen of the Phoenix...making elementary students happy and providing positive influences through creative, long distance communication."
